

Defibrillator Familiarisation Course

Want to learn more about defibrillators and when they should be used? Our 2.5 hour training course will provide up to 20 delegates with an overview of defibrillators so students are aware of how to act in an emergency.

Providing you with a Defibrillator Familiarisation certificate (valid for 1 year), defibshop's Defibrillator Familiarisation has been designed and adhered to guidelines set out by the Resuscitation Council UK (2015).

The Defibrillator Familiarisation course will give you and your colleagues an understanding of defibrillators and how to use them, should a cardiac emergency arise.

Our students will learn about:

- Recognising a heart attack and sudden cardiac arrest
- Providing first aid to an unresponsive casualty
- Performing effective CPR
- Performing first aid to a casualty who is choking

All dates booked over 30 days in advance can be confirmed immediately and will be a guaranteed booking

*This is not generic training, all our learners learn how to use the defibrillator that their companies have purchased.

Price includes:

- Professional Instruction
- All course materials
- Qualification, valid for 1 year
